DETAILED ACTION

Response to Amendment

After-Final Amendment filed 12/21/2004 forms the basis of this office action. In said After-Final Amendment Applicants substantially amended the claim language by re-writing claim 26 in independent form. Said claim 26 had been indicated in the previous office action to contain allowable subject matter. A further search update has been conducted and forms the basis of this office action.

Information Disclosure Statement

While all items on the Information Disclosure Statements filed 7/5/01, 10/14/03 and 01/02/04 have been previously considered, and have been considered again in preparation of this office action, only signed forms for those filed on 7/5/01 and 1/2/04 have been found in the electronic file; the IDS of 1/2/04 is a substantial copy of the IDS filed 10/13/04. To avoid misunderstandings a signed form PTO-1449 for the IDS filed 10/13/03 is included with this office action.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Kenneth H. Salen (Reg. No.: 43,077) on 01/11/2005.

The application has been amended as follows:

Art Unit: 2826

BEGIN EXAMINER'S AMENDMENT

In Claim 34, the wordings "the electric field distribution", as occurring both on line 3 and on line 5, has been replaced by "an electric field distribution".

END OF EXAMINER'S AMENDMENT

REASONS OF ALLOWANCE

Claims 25, 27, 28 and 30-37 are allowed.

2. The following is an examiner's statement of reasons for allowance:

Within the context of nitride based semiconductor laser device of claim 25 the limitation on the Al (aluminum) composition ratio of said cladding layer of first conductivity type sufficiently distinguishes over the closest prior art (Nagahama et al and Okumura as cited) considering the disclosure of Applicant, in particular the reasons for reducing the aluminum composition of said cladding layer to under 0.05 to reduce strain and consequent cracking.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Johannes P Mondt whose telephone number is 571-272-1919. The examiner can normally be reached on 8:00 - 18:00.

Art Unit: 2826

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nathan J Flynn can be reached on 571-272-1915. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
